DEPARTMENT OF PSYCHOLOGY, COUNSELING AND HUMAN SERVICES

ACCEPT THE CHALLENGE™

Why choose psychology, counseling or human services at Geneva?

The strength of Geneva's programs lies in the integration of the biblical perspective with classical and modern theoretical positions, as well as practical approaches to psychology. We believe that application of behavioral, cognitive and social concepts can be personally rewarding, and the program provides a rich variety of classroom, laboratory and practical experience.

- Faculty members are affiliated with professional organizations including the APA, the Christian Association for Psychological Studies (CAPS) and the National Organization for Human Services (NOHS)
- Students receive practical research and field experience

What degree options are available at Geneva?

B.S. in PSYCHOLOGY—Prepares students in the areas of human development, social psychology, experimental methods, abnormal psychology, psychotherapy and more

B.S. in HUMAN SERVICES—Prepares students for positions including child and youth services, probation, welfare services, government agencies and community centers by providing a thorough understanding of public policy as well as professional skills

B.S. in BIOPSYCHOLOGY—Explores the relationship between physiological and psychological systems and provides a deeper understanding of how body functions affect behavior through a joint effort with the Department of Biology
