GENEVA COLLEGE
Form 990: Annual Disclosure Statement

The 2008 Form 990, Return of Organization Exempt from Income Tax, requires an exempt organization to disclose certain relationships and transactions with respect to its board members, officers, key employees and former directors, officers and key employees (collectively referred to as “interested persons”). Because these disclosures request information that is not typically captured by Geneva College, we must request this information from all interested persons.

The 2008 Form 990 instructions provide a “safe harbor” for an exempt organization that makes a “reasonable effort” to obtain the information. To invoke the reasonable efforts provision, an organization must send an annual disclosure questionnaire to all interested persons asking for their representations regarding certain Form 990 disclosures. Specifically, the safe harbor applies to disclosures set forth in Form 990, Part VI, Governance, Management, and Disclosure, Part VII, Section A, Officers, Directors, Trustees, Key Employees and Highest-Compensation Employees, and Schedule L, Transactions with Interested Persons.

In order for Geneva College to avail itself of the above-mentioned safe harbor, we respectfully request that you read and complete this Annual Disclosure Statement. Please be advised that all information reported on this Annual Disclosure will be held confidential. Any questions regarding the questionnaire should be directed to Ken Smith, President.

Annual Disclosures

The following definitions of “business relationship”, “family relationship”, “family member” and “ownership” are critical to the accurate completion of the questionnaire.

A business relationship between two persons includes any of the following:

1) One person is employed by the other in a sole proprietorship or by any organization with which the other is associated as a trustee, director, officer, key employee, or greater-than-35% owner.

2) One person is transacting business with the other (other than in the ordinary course of either party’s business on the same terms as are generally offered to the public), directly or indirectly, in one or more contracts of sale, lease, license, loan, performance of services, or other transaction involving transfers of cash or property valued in excess of transactions with an organization with which the one person is associated as a trustee, director, officer, key employee or greater than 35% owner.

3) The two persons are each a director, trustee, officer, or greater than 10% owner in the same business or investment entity.
A "business relationship" does not include a relationship between (1) attorney and client, (2) medical professional (including psychologist) and patient, or (3) priest/clergy and penitent/communicant.

Ownership. Ownership is measured by stock ownership (voting power or value, whichever greater) of a corporation, profits or capital interest (whichever greater) in a partnership or limited liability company, beneficial interest in a trust, or control of a nonprofit organization. Ownership includes indirect ownership (e.g., ownership in an entity that has ownership in the entity doing business with the organization) and there may be ownership through multiple tiers of entities. The constructive ownership rules of section 267(c) apply for this purpose.

A family relationship and/or family member include:

Unless specified otherwise, the family of an individual includes his or her spouse, ancestors, brothers and sisters (whether whole or half blood), children (whether natural or adopted), grandchildren, great grandchildren, and spouses of brothers, sisters, children, grandchildren, and great grandchildren include interested persons.
