MATH CHALLENGE EXAM

At Geneva College, Math proficiency is determined by SAT or ACT score. Proficiency is demonstrated by a math SAT score of 470 or above or a math ACT score of 19 or above.

Students entering Geneva College without math proficiency must successfully complete one of the following.

1. Repeat the SAT or ACT earning the minimum math score or above
2. Take MAT 095 Algebra
3. Transfer an algebra or calculus course from another acceptable college or university. (Only courses equivalent to Geneva's MAT 101 or higher are accepted for transfer credit)
4. Pass the ***Math Proficiency Challenge Exam***

Math Proficiency Challenge Exam

The Department of Computer Science, Mathematics and Physics are offering the **Math Proficiency Challenge Exam** on June 13th and June 20th (time to be announced).

The fee for the challenge exam is $25.00 and is to be paid at the door. You must be pre-registered with the Department of Computer Science, Mathematics and Physics to take the exam by completing the informaton on the Summer Preview Registration Form.

Students will need to Check In at the Student Center prior to taking the exam. If you wish to move into your residence call before the test, be sure to Check In during the morning.

Please Note:
No calculators or electronic devices can be used during the test. A one hour time limit for the test will be enforced. *Cliffs Quick Review Algebra I*, Wiley Publishers is recommended as a review guide.
