

Cybersecurity 3+1

Receive your undergraduate and graduate degree in cybersecurity in just 4 years! Cybersecurity 3+1 allows students to become an expert in the growing fields of computer system protection, data recovery, and digital forensics. Geneva's Cybersecurity Program offers a unique blend of theoretical knowledge, practical skills, and managerial competencies needed for our students to thrive in this field. This program is a great way for achieving students to grow personally and professionally while saving 2 years of time to completion and significant financial resources. Join this program to become a biblically based guardian of information for business, government, education, and other industries.
