

# History

---

Geneva seeks to help students understand and evaluate the past through the collection, organization and interpretation of evidence, taking into consideration the dynamics of historical events, cause-and-effect relationships, and the interpretations of historical periods and civilizations.

**Geneva's History program** encourages students to develop an historical imagination for the “how’s and why’s” of history as much as the “what’s, when’s and where’s.” Students approach the past in the spirit of biblical faithfulness, gaining a liberal arts background as the basis for future development and contributions to the Christian community and society.
