

# Middle Level Education (4-8)

---

**Our Middle-Level Education program** prepares students to be effective teachers to students from 4-8 grade. This program focuses on teaching with the perspective of “teaching redemptively” and living out Christ’s calling in a meaningful career. This program includes courses that teach about the importance of children’s development and psychology, as well as effective teaching methods for children in this age group. It also consists of extensive classroom hours prior to student teaching to prepare students for the unique experiences they may encounter. This program is designed to create caring teachers that seek to model Christ’s love and leadership in their classrooms.
