

# Music

---

**Geneva's Music program** is designed to encourage students to develop an appreciation and understanding of music. The general music program is meant to be combined with another major or minor so that students can benefit from education in multiple disciplines. The music program has fundamental courses that cover topics in music theory and music history. There are also numerous instrumental lessons and ensemble opportunities allowing for experiential learning. This program is a valuable opportunity for students to further develop a passion for music, while also pursuing other courses of study.
