

Secondary Education (7-12)

Our Secondary Education program prepares students to be effective teachers to students from 7-12 grade. This program focuses on teaching with the perspective of “teaching redemptively” and living out Christ’s calling in a meaningful career. Students of this program will be equipped to teach high school biology, chemistry, English, math, physics, or social studies. This program highlights the value of experiential learning as students begin classroom learning as early as their first year. There are also several opportunities for students to be involved in local teaching opportunities. Students who complete this program will be prepared to be effective teachers in any learning environment with an education grounded in Biblical principles.

Secondary Ed English

Geneva's Secondary Education English program prepares well-qualified teachers for careers in both public and Christian schools. Teachers have great impact on the social, personal and intellectual development of individuals.

We believe that Christians are called to develop their passion to teach individuals in a variety of educational settings. Distinctive to Geneva, our students develop a perspective on “teaching redemptively” in the classrooms.
