

Criminal Justice

Our Criminal Justice program is committed to teaching students an understanding of justice from a social and spiritual point of view. Students will be taught the facets of the American justice system and judicial procedure. Their education will go beyond the classroom as they observe the justice system through real-world internships and experience mock crime scenes. All classes will prompt students to see criminal justice as a field that can share the light of Christ with the world. The program curriculum is designed to build professionals that embody biblical principles in their venture to uphold justice in their chosen career path.
