* The 6 Political Science electives must be distributed as follows: Students must take one upper level POL course in American Politics or Public Policy, one in Comparative or International Politics; and one in Political Theory. Students then take at least nine additional hours of upper level Political Science electives

This plan is based on the assumption that students will take only the minimum required number of courses in Political Science. Any of the electives may be replaced with additional Political Science courses should the student desire to do that.

Students desiring to seek Secondary Education Certification in Social Studies with a Political Science major will use all of their electives to fulfill required Education courses and support courses in the various Social Studies areas. They will likely also need to take at least 9 hours above the minimum of 121. Their sequencing will also be quite different from what is noted above.
