BIOD 103 Medical Terminology 3 Credits

**Prerequisites:** General biology (recommended but not required)

**Instructor:** Renee Correll, DPT

**Facilitators:**
- Brittany Martinez, Ph.D.
- Jerrod A. Poe, Ph.D.
- Christine Bowman, DMD
- Heidi Burtt, DPT
- Crista Bush, MOT, OTR/L
- Alycia D Albey, MPAS, PA-C
- Tammie Kephart, MS, RDN, LDN
- Rebekah Stepp, MS, CRNP
- Kelly Straley, CRNP
- Brandon Zangus, MOT, OTR/L

**Contact Information:** Faculty may be contacted through the Portage messaging system

**Additional Information:** www.portagelearning.com

**Course Meeting Times:** BIOD 103 is offered continuously

**Course Description:** A systematic approach to learning the language required to practice in a medically related field. The course will provide the ability to identify, build and recognize terminology used to describe the human body as well as representative pathological processes, procedures, conditions and diseases that may affect it.

**Course Outcomes:** As a result of this course experience a student should be able to:

- Recognize and define common root words, prefixes, and suffixes used to form medical terms
- Explain basic anatomical terms and descriptions of each body system and its function
- Describe basic terminology and function of the integumentary and musculoskeletal systems
- Define the basic terminology and function of the nervous system, endocrine system, and the special senses
- Describe basic terminology and function of the cardiovascular, respiratory, and lymphatic systems
- Define basic terminology and function of the digestive, urinary, and reproductive systems

*Please see the Module Topics section below for expanded course outcomes.

---

* Portage Learning college courses are offered by Geneva College, which is regionally accredited by the Middle States Commission on Higher Education. Portage Learning is included in the College’s Department of Professional and Online Graduate Studies; courses are delivered through the PortageLearning.com platform.
Each of these BIOD 103 student learning outcomes is measured:

**Directly by:**
1. Module application problems (with instructor feedback)
2. Exams
3. Comparison of pre-course / final exam results

**Indirectly by** an end of course student-completed evaluation survey

**Course Delivery:** This course is asynchronously delivered online and is composed of 40 - 50 hours of reviewed module assignments with instructor feedback, and 8 contact hours of secure online exams.

**Course Progression:** It is the policy for all Portage Learning courses that only one lecture module and the accompanying exam be completed each day. Research on the best practices in learning indicates that time is needed to process material for optimal learning. This means that once an exam has been completed, the next exam will not unlock until the following day. This allows for instructor feedback/class expectations as the student moves through the material. Instructors, like the College, are not available during the weekend; grading, therefore, is M-F and may take up to 72 hours during these days. Also, it is the policy of Portage Learning to support a minimum of 21 days; this is not a negotiable time period. Please plan your time accordingly.

**Required readings, lectures and assignments:** Portage courses do not use paper textbooks. Students are required to read the online lesson modules written by the course author which contain the standard information covered in a typical course. Please note the exam questions are based upon the readings. Video lectures which support each lesson module subject should be viewed as many times as is necessary to fully understand the material.

**Module Review Questions:** The practice problems within the modules are not quantitatively part of your final grade, but the module work is a pass/fail component of the course and will be reviewed for completeness by the instructor. Be sure to answer all of the problems, being careful to answer the questions in your own words at all times since this is an important part of adequate preparation for the exams. After you answer the practice problems, compare your answers to the solutions at the end of the module. If your answers do not match those at the end, attempt to figure out why there is a difference. If you have any questions please contact the instructor via the My Messages tab.

**Academic Integrity** is a serious matter. In the educational context, any dishonesty violates freedom and trust, which are essential for effective learning. Dishonesty limits a student's ability to reach his or her potential. Portage places a high value on honest independent work. In a distance learning situation, we depend on the student's desire to succeed in the program he or she is entering. It is in a student's own best interests not to cheat on an exam, as this would compromise the student's preparation for future work. It is
required of each student to take exams without consulting course materials or study aids including another person, the lesson pages, printed materials, or the Internet. **Students may not copy and paste responses in the answer boxes from any source, including their own notes or drafts in a word processing document, unless explicitly instructed to do so.** To this end, your instructor will be alert to any indications that a student may be violating this principle. It will be necessary to show all your work on exams. When the nature of the course does not require numerical or symbolic determination (perhaps instead just requires recitation of learned descriptions), our experienced staff is able to detect the unauthorized consultation of study aids when answering exam questions. A violation of the academic integrity policy may result in a score of zero on the exam and possible expulsion from the course, at the discretion of the instructor with consultation with an administrative-instructional committee.

Review the Student Handbook for more specifics. If you have any questions regarding the academic integrity policy, please consult your instructor **prior** to taking module exam one.

**Required Computer Accessories:** It is recommended that students use a desktop or laptop computer, PC or Mac, when taking the course. Some tablet computers are potentially compatible with the course, but not all features are available for all tablet computers. The latest full version of Google Chrome, Firefox, Edge, or Safari browser is required for the optimal operation of the Canvas Learning Management System. In addition, some courses will use the Respondus Lockdown Browser for exams. Instructions on downloading and installing this browser will be given at the start of the course. It is recommended to also have the latest version of Flash installed as a browser plugin as some sections of the course may require it. We highly recommend using a high-speed Internet connection to view the video lectures and labs. You may experience significant difficulties viewing the videos using a dial-up connection.

For more information on basic system and browser requirements, please reference the following:

**Browser requirements:** [https://community.canvaslms.com/docs/DOC-10720](https://community.canvaslms.com/docs/DOC-10720)

**Module Topics**

**Module 1:** In this module students are introduced to root words, combining vowels, prefixes, and suffixes and how to recognize them. Content also includes a table of common root words, prefixes, and suffixes used to form common medical terms.

**Module 2:** In this module students are introduced to positional and directional anatomical terminology. Content also includes a brief description of each body system and its function.

**Module 3:** In this module students will review the anatomy and function of the integumentary and musculoskeletal systems and learn root words, prefixes, and suffixes specific to them.
Module 4: In this module students will review the anatomy and function of the endocrine and nervous systems as well as the special senses and learn root words, prefixes, and suffixes specific to them.

Module 5: In this module students will review the anatomy and function of the cardiovascular, respiratory, and lymphatic systems and learn root words, prefixes, and suffixes specific to them.

Module 6: In this module students will review the anatomy and function of the digestive, urinary, and reproductive systems and learn root words, prefixes, and suffixes specific to them.

**Suggested Timed Course Schedule** (to complete the course within a typical college semester)

All Portage courses are offered asynchronously with no required schedule to better fit the normal routine of adult students, but the schedule below is suggested to allow a student to complete the course within a typical college semester. Despite this suggestion, the students may feel free to complete the course at their desired pace and on a schedule determined by them.

<table>
<thead>
<tr>
<th>Time Period</th>
<th>Assignments</th>
<th>Subject Matter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Days 1-16</td>
<td>Module 1, Exam 1</td>
<td>Common root words, prefixes, and suffixes</td>
</tr>
<tr>
<td>Days 17-33</td>
<td>Module 2, Exam 2</td>
<td>Directional and positional terminology and body system overview</td>
</tr>
<tr>
<td>Days 34-50</td>
<td>Module 3, Exam 3</td>
<td>Terminology of the integumentary and musculoskeletal systems</td>
</tr>
<tr>
<td>Days 51-67</td>
<td>Module 4, Exam 4</td>
<td>Terminology of the endocrine, nervous, and special senses systems</td>
</tr>
<tr>
<td>Days 68-84</td>
<td>Module 5, Exam 5</td>
<td>Terminology of the cardiovascular, respiratory, and lymphatic systems</td>
</tr>
</tbody>
</table>
Days 85-101  Module 6, Exam 6  Terminology of the digestive, urinary, and reproductive systems

Days 102-108  Final Exam  Based upon module material

**Grading Rubric:**

6 Module exams = 100 pts. each x 6 = 600 pts.
Final exam = 120 pts.
Total 720 pts.

The current course grade and progress is continuously displayed on the student desktop.

**Grading Scale:**

89.5% - 100% (645 - 720 pts) = A
79.5% - 89.4% (573 - 644 pts) = B
69.5% - 79.4% (501 - 572 pts) = C
59.5% - 69.4% (429 - 500 pts) = D
<59.4% (<429 pts) = F

**Suggested External References:**

If the student desires to consult a reference for additional information, the following textbooks are recommended as providing complete treatment of the course subject matter.

- Springhouse, *Medical Terminology Made Incredibly Easy*, LWW

**Learning Support Services:**

Each student should be sure to take advantage of and use the following learning support services provided to increase student academic performance:

- **Video lectures:** Supports diverse learning styles in conjunction with the text material of each module
- **Messaging system:** Provides individual instructor/student interaction
- **Tech support:** Available by submitting a help ticket through the student dashboard
**Accommodations for Students with Learning Disabilities:**

Students with documented learning disabilities may receive accommodations in the form of an extended time limit on exams, when applicable. To receive the accommodations, the student should furnish documentation of the learning disability at the time of registration, if possible. Scan and e-mail the documentation to studentservices@portagelearning.com. Upon receipt of the learning disability documentation, Portage staff will provide the student with instructions for a variation of the course containing exams with extended time limits. This accommodation does not alter the content of any assignments/exams, change what the exam is intended to measure or otherwise impact the outcomes of objectives of the course.

**One-on-one Instruction:**

Each student is assigned to his/her own instructor. Personalized questions are addressed via the student dashboard messaging system.

Online learning presents an opportunity for flexibility; however, a discipline to maintain connection to the course is required; therefore, communication is essential to successful learning. **Check your messages daily.** Instructors are checking messages daily Monday-Friday to be sure to answer any questions that may arise from you. It is important that you do the same so you do not miss any pertinent information from us.

**Holidays:** During the following holidays, all administrative and instructional functions are suspended, including the grading of exams and issuance of transcripts.

- New Year's Day
- Easter
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving weekend
- Christmas Break

The schedule of holidays for the current calendar year may be found under the Student Services menu at www.portagelearning.com

**Code of Conduct:** Students are expected to conduct themselves in a way that supports learning and teaching and promotes an atmosphere of civility and respect in their interactions with others. Verbal and written aggression, abuse, or misconduct is prohibited and may be grounds for immediate dismissal from the program.

This is a classroom; therefore, instructors have the academic freedom to set forth policy for their respective class. Instructors send a welcome e-mail detailing the policy of their class, which students are required to read prior to beginning the course.
**Grievances:** If for any reason a student has a complaint about the course work or the instructor, the student is advised to first consult the instructor, who will be willing to listen and consider your concern. However, if you don’t feel you have received a satisfactory reply, you are encouraged to contact the Academic Dean of Portage Learning for further consideration of your complaint. The formal grievances process must be initiated via written communication. If desired, please file a written grievance to academics@portagelearning.com to initiate the process.

**Remediation:** At Portage Learning we allow a "one-time" only opportunity to re-take an alternate version of one module exam on which a student has earned a grade lower than 70%. This option must be exercised before the final exam is started. If an exam is retaken, the original exam grade will be erased and the new exam grade will become a permanent part of the course grade. However, before scheduling and attempting this retest, the student must resolve the questions they have regarding the material by reviewing both the old exam and the lesson module material. Once ready to attempt the retest of the exam they must contact their instructor to request that the exam be reset for the retest. Remember, any module retest must be requested and completed before the final exam is opened.

**Note:** Exams on which a student has been penalized for a violation of the academic integrity policy may not be re-taken.
